

# TO DRAFT MEN ABOUT SEPTEMBER 1

## MOTHER CAN'T BE TOLD HER BOY IS MURDER VICTIM

Mrs. John Dixon in Critical Condition Here—Son Slain in Discharge of Duty

## DRUNKEN TROUBLE-MAKER STABS OFFICER TO DEATH

Man Whom He Had Thrice Expelled From Dance, Turns on Man With Knife

Mrs. George Dixon was carried from her sickbed in a local hospital to the side of her murdered husband at Wilton last night, while the dead man's mother, Mrs. John Dixon, who underwent an operation in the same hospital a week ago, is in so serious a condition that she cannot be informed of the tragedy which shocked the neighboring village at 12:30 Sunday morning, when Officer George Dixon was stabbed to the heart by Joseph Keller, a local miser who had thrice been expelled from the Keller hall, where a dance was in progress. Stabbed Four Times.

Dixon had been called upon several times to eject Keller, who is said to have been drinking. Finally he accompanied the man almost to his home, advised him to retire and cease making trouble, else it would be necessary to jail him. Not heeding this warning, Keller, a few minutes later, again showed up at the dance hall. This time Dixon placed him under arrest and had just turned the corner of the building enroute to the lock-up with his prisoner when the latter drew a long knife and four times plunged it into the heart of the officer, who expired without a struggle.

The murder was witnessed by several men who had followed the couple from the hall. They immediately captured Keller and prevailed upon his brother, who compelled summary action to place the man in jail for the night. Sunday morning he was turned over to the sheriff of Wilton county and taken to the county prison at Washington.

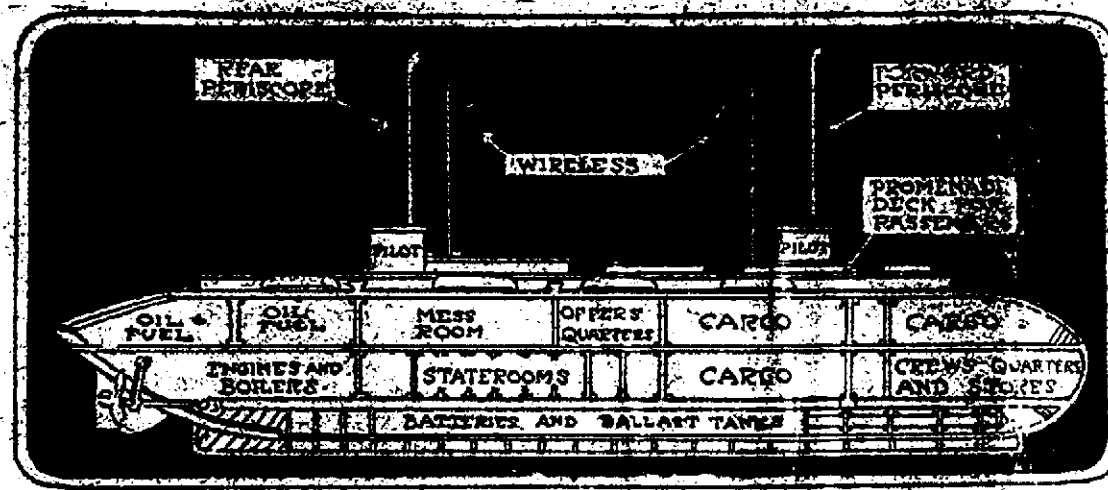

Had Worked Here.

Officer Dixon, 27 years old, born in Wilton, Illinois, whence he came with his parents, Mr. and Mrs. John Dixon, to Wilton, 15 years ago. He had been on the Wilton police force a year and a half. For two years he was engaged as attendant at St. Alexis hospital in Bismarck and for ten months was employed as guard at the state penitentiary. He is survived by his widow, formerly Miss Jessie Mosier of Bismarck, and three small children; by his parents; two brothers—John Dixon of Garrison and David of Wilton—and two sisters—Hanna, at Wilton and Mrs. Nellie Ingerhoefer in Montana.

The heartbroken father was in Bismarck last night to break the news to his daughter-in-law and to make arrangements for the funeral Thursday. "It was terrible to have to talk to my boy's mother and pretend that everything was all right. But I had told her the truth, I would have killed her. His wife is barely able to leave her bed and accompany us home."

Keller is said to be about sixty years old. He is married but it is claimed that his wife has not lived with him for some time.

## U. S. Must Build Submarine Liners Greater Than "Deutschland" to Beat U-Boats, Says Inventor Simon Lake

Simon Lake's Proposed Submarine Liner to Beat U-Boats

## BONE DRY LID IS CLAMPED ON IN 23 STATES

North and South Dakota and Iowa Are All Affected by New Laws

## DULUTH SALOONS CLOSED DOORS SATURDAY NIGHT

NEARLY HALF NATION IN BONE DRY LIST

These states became bone dry July 1: Alabama, Arizona, Arkansas, Colorado, Georgia, Idaho, Iowa, Kansas, Maine, Mississippi, Nebraska, North Carolina, North Dakota, Oklahoma, Oregon, Rhode Island, South Carolina, South Dakota, Tennessee, Vermont, Virginia, Washington, and West Virginia.

The following are affected at future dates: Alaska, January 1, 1918; Indiana, April 3, 1918; Michigan, April 30, 1918; Montana, December 31, 1918; and Utah, August 1, 1917.

Formed Corporation to Construct Giant Undersea Liners to Meet Situation

## LADD HAS NOT BEEN ASKED TO QUIT CRAWFORD

Neither the Board nor Unfair to Ladd

## EXPECT STATE CHEMIST TO QUIT CRAWFORD

Neither the board nor unfair to Ladd. The board has asked Dr. Ladd to resign or suggested that he do so, said President Crawford. "When Dr. Ladd became president of the college he was retained as head of the pure food department. At times there has been a question in the minds of the board whether Dr. Ladd has not more than he can do and whether it might not be well to confine his work to the duties for which he is most fitted and relieve him of some others. But in everything that has been done the advice and consent of Dr. Ladd has been had, and nothing has been considered without his approval.

"The board's stand today is as it always has been that no head of any institution or faculty member thereof who is efficient need fear removal. The board in everything it has done has sought to increase the efficiency of our educational institutions. Dr. Ladd understands the attitude of the board, approves it and knows that in this morning's paper the article is true. I expect that he will make a statement to this effect.

"Such attacks as this of today handicap our entire educational system, and they should not be countenanced by any member or friend thereof."

## CROWDED CAR HURLED INTO NIAGARA RAPIDS

Niagara Falls, N. Y., July 2.—Two investigations by country and state were under way today of the accident in the Niagara River gorge at the cantilever bridge, yesterday, when a crowded trolley car, on the Great Gorge route, was thrown from the tracks by a washout and plunged over a 20-foot embankment into the headwaters of the river.

The railroad officials today held to their estimate of ten dead, four missing, and probably dead, and 24 injured. In addition to these, nine persons, hitherto missing, have been located, making a total of 47 accounted for. Nine bodies have been recovered.

## WOMAN KILLS SELF AND THREE CHILDREN

St. Paul, Minn., July 2.—Mrs. Stella Komarek, 35, 943 Bayard avenue, killed herself and three children by turning on the gas jet in her one-room house at 10 p. m. Saturday.

The children are Annie, eight months old; James, 2, and Joseph, 4. Domestic trouble caused Mrs. Komarek to commit the deed, neighbors say.

The tragedy was discovered by Mr. Komarek when he returned to the house at 11:30 p. m. He looked through the front window and saw his wife and three children on the floor.

## Stock Sales to Reach \$500,000

St. Paul, July 2.—Stock sales of the Equity Co-operative exchange will pass the half-million dollar mark within the next ten days according to J. G. Critze, general manager, who returned today from a trip through North Dakota. Anticipation of a big crop is largely responsible for increased investment by farmers.

Among co-operatives which took \$1,000 worth of stock in the last week, Mr. Critze announced today, were those at Lisbon, Crosby, and Ypella, N. D. North Dakota. The Cayuga Elevator took \$500 worth. Seven farmers of Crosby subscribed for \$4,300 worth of stock.

## COTTON, WOOL AND PRODUCTS ARE EXAMINED

Washington, July 2.—Amendments to the food control bill adopted by the Senate today and cotton, wool, and its products, including clothing, and hides, skins, and their products, shoes, to the products which the government would control.

## ATTACK VENICE, RAID TRIESTE IN REVENGE

Rome, Venice has a submarine base, and it is the duty of the Italian navy to attack it, said an Italian official today.

## RUSSIAN ARMY WINS SUCCESS OVER GERMANS

Celebrates Resumption of Offensive by Capturing Galician Positions Over Long Front

## MORE THAN 8,500 PRISONERS ARE TAKEN

Drive Compares Favorably With Movements of Brusiloff's Before Revolution

Petrograd, July 2.—M. Kerensky, minister of war, today telegraphed Premier Lvoff that the Russian revolutionary army resumed the offensive on July 1.

Russian armies have not lost their old striking power, as the result of their long inactivity. This is evident by the announcement today by Petrograd of the taking of the important Austro-German position in Galicia at the outset of the new offensive, together with the capture of more than 8,500 prisoners.

The advance was effected between the upper Strippa and the Narayvka. General Brusiloff moved here yesterday, the Austro-German line being struck along a front of more than 18 miles, after prolonged artillery preparation. In pressing forward the Russians captured one small town.

The number of prisoners taken compares favorably with last year's list from General Brusiloff's great offensive, considering the comparative shortness of attacks. A stroke of such force had hardly been expected, considering the disorganizing of the army following the revolution.

The artillery battalions still remain in the rear, and the Russian army continues their offensive against the Turks in the Caucasus, occupying the village of Engidje and another Turkish stronghold, Kalamukyan. The German general staff says the Russian losses in the Galician attacks surpassed any hitherto known. Some Russian units, it was reported, were entirely dispersed.

## FIFTEEN KILLED WHEN TANK HITS STEAMER

Milwaukee, July 2.—Federal investigation into the causes which lead to the death of 15 persons and injury to about as many more, the result of the falling of a huge water tank from a height of 50 feet or more onto the forward part of the whaleboat steamer Christopher Columbus last Saturday, when the boat ran into the dock with such force as to loosen the tank's superstructure and cause it to topple over, was continued today. Only seven of the probable score of injured are still in hospitals and all are expected to recover.

## FILES BIG BOND

F. A. Irish, treasurer of the North Dakota Agricultural college, has filed his bond for \$25,000 with the secretary of state.

## Medical Department Expresses Heartfelt Thanks for Ambulance

Gift From People of North Dakota Has Arrived in Lisbon—Major Patterson Much Pleased With It

The First regiment's first motor ambulance, presented to the medical corps by generous citizens of Bismarck and other North Dakota towns, has arrived at Lisbon, headquarters of the medical division, and it meets with the entire approval of the commander of the corps, who expresses his appreciation in the following letter:

"Headquarters First Regimental Infirmary, North Dakota National Guard, Lisbon, North Dakota, June 30, 1917.

"To the Editor Bismarck Tribune, Bismarck, North Dakota.

"Dear Sir:

"I wish to extend the deepest heartfelt thanks of the medical department of the North Dakota national guard to you, and through the medium of your paper, to the citizens of our state, who so generously contributed to the fund for the purchase of an ambulance for the use of the North Dakota troops. It arrived in Lisbon yesterday, and I must say we are all very much pleased with it. I sincerely trust that we may have but very few occasions when it will be needed for the transportation of wounded men of our state, and if any are unfortunate enough to require its services, you may rest assured that the choicest blessing of every occupant will be poured upon you and upon all others, who, by their generosity, make it possible for us to possess it.

"Very respectfully,

"T. C. PATTERSON, Maj. M. C. 1st N. D. Inf."

## No Time Lost By Americans; Awe Germans

Prisoners Detailed to Help Yankees—Amazed at Safe Arrival of New Allies

## CAMP ESTABLISHED AMID CHEERS OF FRENCH PEOPLE

A French Seaport, June 27. (Delayed by Censor).—Only a few hours after the arrival of the American expeditionary force at this port the men were established in their camps. By noon order had been brought out of chaos. The troops after mess began the work of putting the camp in order, a task which they accomplished with the aid of a few scores of amazed and seemingly paralyzed German prisoners, many of whom refused to believe that Americans actually had arrived to fight their countrymen.

The general commanding the troops established his headquarters for the time being in a wooden barracks building. He and his staff sat down to a general American luncheon, to which the general invited the correspondent.

No Submarine Harmed Them.

The admiral in command of the American transports and convoys, after disposing of the first rush of routine business aboard his flagship received the correspondents and gave them a description of the voyage. He said it was broken only by incidents which already had been related to Washington, and which he desired to be given out there in full. He said the scene of the historic debarkation, they were seen by few. In the gray of the early dawn the remaining vessels were anchored by a battleship and surrounded by destroyers. As the wind sprang up, the ships were blown about, and the scene was a chaotic one.

The first American transport to reach port arrived during the night, but because of the late hour and the unexpected selection of this town as the scene of the historic debarkation, they were seen by few. In the gray of the early dawn the remaining vessels were anchored by a battleship and surrounded by destroyers. As the wind sprang up, the ships were blown about, and the scene was a chaotic one.

## N. P. TO PAY BONUS

Remuneration Jan. 1

All employees of the Northern Pacific railway who receive less than \$3,000 a year will be paid a bonus of 10 per cent of their wages for six months Jan. 1, 1918.

President J. M. Hannaford made the announcement Saturday.

Where service has not been continuous, the bonus will apply only to the wages earned during the period of continuous service last preceding Jan. 1. Employees who will be laid off on account of reduction in force will also receive bonuses.

## RAILWAY EMPLOYEES WILL GET EXTRA

Remuneration Jan. 1

All employees of the Northern Pacific railway who receive less than \$3,000 a year will be paid a bonus of 10 per cent of their wages for six months Jan. 1, 1918.

President J. M. Hannaford made the announcement Saturday.

Where service has not been continuous, the bonus will apply only to the wages earned during the period of continuous service last preceding Jan. 1. Employees who will be laid off on account of reduction in force will also receive bonuses.

## EXEMPTIONS ANNOUNCED BY GOVERNMENT

President Wilson Sets Forth Regulations of Selective Service in Great Detail

## ORDER OF LIABILITY TO BE DETERMINED LATER

Men With Dependents Are to Be Discharged by the Local Boards

Washington, July 2.—Regulations to govern the next step toward selecting a national war army from the millions registered for service on June 5 were issued today at the direction of President Wilson. The regulations leave to be prescribed later the manner of determining the order of liability of the men registered, but set forth in great detail the method of arriving at exemption and the work generally of the local and district boards, already named, to carry out the task.

No Class Exemptions.

Exemption regulations add little to the terms of the draft law. The questions of whether a man between the ages of 21 and 30 is entitled to exemption because of dependents, the nature of his occupation, or physical unfitness, are for the board to decide. It is made clear, however, there are to be no class exemptions and that each individual case must be decided on its merits.

The county board will pass upon claims for exemption, except those based upon industrial or agricultural occupation, subject to appeal to the district board. All cases involving agricultural or industrial occupations will be passed on by the district board—one for each federal judicial district, which will also decide appeals from the decisions of the local boards.

About Sept. 1.

In the near future a date will be set by Brigadier General Crowder for the meeting and organization of the boards. At the same time it is expected the selection regulation will be promulgated so that the prospects may be put under way without delay. The present intention is to call the men selected about Sept. 1, or as soon thereafter as the contingents to house them can be completed.

In a statement accompanying the announcement of the regulations the president called upon the boards to do their work fearlessly and impartially and to remember that "our armies at the front will be strengthened or sustained if they be composed of men free from any sense of injustice in their mode of selection."

Two Examinations.

Upon organization the local boards will take all registration cards, which they will number serially and list for posting by which the order of liability for service shall be determined. Of the quota to be drawn from its territory (minus credits for enlistments in the national guard or regular army), each board will prepare a list of persons designated for service in the order of their liability, post the list, give it to the press, and within three days send notice to each designated person by mail. If the men so notified appear the board will first make a physical examination, in accordance with regulations to be provided, bearing in mind that all persons accepted by them will be re-examined by army surgeons.

If the physical examination is passed successfully then comes the question of exemption. Persons who must be exempted or discharged by the local board include:

Ministers Are Exempt.

Officers of the United States, of the state, territories and District of Columbia, ministers of religion, students of divinity, persons in the military or naval service of the United States, subjects of Germany, all other aliens, who have not taken out first papers, county and municipal officers, workmen in federal armory, arsenals and navy yards, persons in the federal service designated by the president for exemption, pilots, merchant marine sailors, those with a status with respect to dependents which renders their exclusion desirable, a married man with dependent wife or child, son of a dependent widow, son of a dependent, aged or infirm parent, or brother of dependent, orphaned child under 16 years of age whose father died in the service of the United States, any well organized religious sect existing May 18, 1917, whose creed forbids participation in war, and whose religious convictions accord with the creed.

Claims for Exemption.

Claims for exemption because of dependents may be made by the man himself, his wife, or other dependents, or by a third party who has personally investigated the case. A claim made by the husband must be accompanied by supporting affidavits signed by the wife and by the head of a family residing in the same territory. A claim by the wife and a third party must be accompanied by two supporting affidavits signed by heads of families.

Similar rules governing claims on grounds of other dependents, when

(Continued on Page Three.)

# MINOT MAY GET FIRST COMPANY IN THE SECOND

## Magic City Sends Earliest Reports of Preliminary Recruiting to Required Number

### HARVEY OFFERS BAND AND COMPANY FOR THE SECOND

New Rockford, N. D. July 2.—Harvey is ready to do its bit in the war by enlisting a band and company for the second regiment. When Adjutant General Tharalson arrived at Carrington on his way to Devils Lake to meet Governor Frazier, relative to commissions of the second regiment, he was met by fifteen from Harvey, who advised him of the activities there.

The Harvey band is one of the best in the state. With Harvey's infantry company, ten companies have already been organized for the second regiment. Carrington and New Rockford are both enthusiastic over their companies and have enlisted their men.

Minot, the first town to report the recruiting of the required number of men for its new company, will have Co. A in the second regiment, North Dakota national guard. It was announced today. Probabilities are that the regimental band will be assigned to Harvey, and that Hillsboro, with E. R. Saries as captain adjutant will get the supply company.

Nine towns to date have reported the practical completion of the preliminary recruiting required. These are Bismarck, Minot, Cando, Crosby, Langdon, Devils Lake, New Rockford, Beach and Carrington. No difficulty is anticipated in recruiting a supply company at Hillsboro and a band at Harvey.

**Many Want Place**

Many towns not originally considered have been clamoring for a place in the second and all have been advised that the first comers will be first served.

**White To Be Colonel**

That Frank White of Valley City, former governor, a member of the state board of regents and a major in the old national guard organization, will be colonel of the new regiment, Adjutant General T. H. Tharalson, lieutenant-colonel, and District Judge J. M. Hanley of Mandan and Charles F. Mudgett, of Valley City, majors, is practically certain, although Governor Frazier has not yet made the appointments. All of these men are veterans of the Philippine campaign, as are Capt. A. B. Welch of Bismarck, Thomas Lomenick of Devils Lake, and others who are raising companies. "The second will have as many ribbon men as any other guard organization."

zation in the service," declared Adjutant General Tharalson today.

Another company here

Capt. A. B. Welch formerly commander of Co. A, upon finding that a large amount of technical preliminary training which could not be attended to in ten days would be necessary to satisfy the department, the organization of a Sioux company at the Standing Rock reservation, he decided to raise a company in Bismarck or Mandan instead. Former Lieut. Ward Preston of Co. A has been picked as Captain Welch's first lieutenant, and more than thirty members already have been pledged to the local company. Whether this company will be assigned to Minot or to Bismarck depends upon the war office reports the largest number of volunteers.

# CHANGES OF VENUE TO DELAY MURDER TRIALS

## Chumack and Lehman Probably Will Not Go on Stand Until Next September

Dickinson, N. D., July 2.—Demands on the part of Mike Chumack, alleged murderer of Mr. and Mrs. J. H. Caldwell, and Charles Lehman, charged with the slaying of Adolph Weitzstein, for changes of venue probably will result in delaying their trials, set for July 21, until September. Where the trials will then be held has not been determined.

# RAIL BOARD CONFERS WITH DR. LADD TODAY

## Working Out Grain Grading Bill Cream Rates Effective on July 5

The railway commission is meeting in special session at Fargo today to confer with Dr. E. F. Ladd over the working out of the grain grading bill which became effective today. Tomorrow, Thursday and Friday the statutory meeting will be held at the Gate City. The reduced cream rates made effective today by order of the commission, have encountered no opposition to date from the railway companies, although some of the lines have asked and have been granted an extension of time to July 5 to permit them to publish tariffs and prepare for the establishment of the new schedules.

# CONCESSION IN BRAZIL

The president of Brazil has granted a concession of the construction and operation of a railway from Curitiba, the capital of the state of Parana, to connect with the Maracana railway. The total extension will be about 625 miles in length and will furnish direct railway communication between the city of Curitiba and the ports of Rio and Santos.

# HASSOCKS FOR FOOTBALLS

Hassocks as substitutes for metal footballs are finding their way into many car bodies designed more particularly for the use of women. The light-colored shoes of the moment are largely responsible for the change. Metal rails frequently scratch them and hence are in disfavor, though in winter something of the kind under the guise of a heater is much to be desired.

# DIFFICULT NAVIGATION

An old lady was on her first ocean voyage. "What's that down there?" she asked the captain. "That's the steering, madam," he replied. "Really?" she exclaimed. "And does it take all those people to make the boat go straight?"

# WOULDN'T FIGHT FOR Uncle Sam Till Made To, Can't Be Citizen

Bowman, N. D., July 2.—Citizenship rights were denied Ignatz Krowksi, Russian-German, when he stated in district court that he would not fight for the United States against the Kaiser unless compelled to.

# PARIS GREEN For BUGS

A New Yorker, of wide experience, has written a book telling how the tobacco or snuff habit may be easily and quickly banished with delightful benefit. The author, Edward J. Woods, 1423 M. Station E. New York City, will mail his book free on request.

The health improves wonderfully after tobacco craving is conquered. Calmness, tranquil sleep, clear eyes, normal appetite, good digestion, manly vigor, strong memory and a general gain in efficiency are among the many benefits reported. Get rid of that nervous, irritable feeling, no more need of pipe, cigar, cigarette, snuff or chewing tobacco to pacify morbid desire.

# INDIAN SCHOOLBOYS ENLIST IN UNCLE SAM'S ARMY

Twenty-one Indian boys from the governmental school at Allouez, Mich., went to Fort Wayne, at Detroit, and enlisted in the Twenty-third Michigan regiment. They are the cream of the school's athletes and are under command of "Chief" Nevitt, athletic director and former minor league baseball star. Part of the Indian regiment is here shown in the Indian cadet uniform.

# GENERAL FRASER ASSUMES DUTIES

## Major Arrives From Fargo to Find Offices Deserted—Boyd Succeeds

Major G. A. Fraser of Fargo arriving today to assume his office as adjutant general found himself without a staff or reception committee. Adjutant General Tharalson, Major Stickley and Governor Frazier, the men most directly concerned in the change made in the adjutant general's office today, are in conference at Devils Lake, and while technically Major Fraser's commission took effect this morning, he found no official business awaiting his hand.

"I might as well have enjoyed any other day's fishing," sighed General Fraser, as he cast his eyes longingly in the direction of Big Lake.

An Old Timer.

The new adjutant general comes with 28 years' service in the North Dakota national guard. He served in the Philippine campaign. In 1905 he was commissioned lieutenant and battalion quartermaster.

# YOUNG FARMER DIES When He Wades Out Over Head in River

## Hettinger, N. D., July 2.—Nick Mootz, a prominent young farmer of the Spring Butte neighborhood, was drowned when he waded beyond his depth into the waters of Cedar river. A companion who could swim made an effort to save Mootz and was himself nearly drowned by the diving man's struggles.

# CONDUCTING EXAMS

Dr. Hugo Mell, lieutenant in the United States Army Medical division is conducting an examination this week for applicants for the veterinary corps. Three are taking the examinations.

# Little One Drowns In 18 Inches of Water

New Rockford, N. D., July 2.—Phyllis, about 18 months old, daughter of Mr. and Mrs. Fidelis Schneider, picking up a 22-calibre rifle belonging to her older brothers and sending a bullet into the abdomen of Emelie Schneider, aged seven. The missile ploughed through the little girl's vitals, and she was in immediate danger of death. She was carried to a hospital at Dickinson, where her recovery is doubtful.

# SIX-YEAR-OLD MISS MAY BE RESPONSIBLE FOR DEATH OF SISTER, Aged Seven

Hettinger, N. D., July 2.—"I'll show you I can shoot as well as the boys," said the six-year-old daughter of Mr. and Mrs. Fidelis Schneider, picking up a 22-calibre rifle belonging to her older brothers and sending a bullet into the abdomen of Emelie Schneider, aged seven. The missile ploughed through the little girl's vitals, and she was in immediate danger of death. She was carried to a hospital at Dickinson, where her recovery is doubtful.

# CARLOAD OF POISON BEANS FOUND BY DR. LADD TURNED BACK

## Large Shipment of Deadly Seeds From Burma Discovered in Local Wholesale House

An entire carload of beans received by a local wholesale house from a St. Paul jobber was found by Dr. E. F. Ladd to be mixed with the deadly Burma bean and were returned by the wholesaler to the source whence they came.

The inspection was made on request of a salesman who had read warnings of the prevalence of the Burma bean. He had no reason to suspect this particular shipment, but, meeting Dr. Ladd in a local hotel, suggested that he drop over and take a look at the lot.

Dr. Ladd discovered Burma beans in every one of the 21 sacks. Had they gone out a wholesale poisoning might have resulted. The Burma bean is slightly larger than the navy and somewhat resembles the lima in shape. Mixed with a quantity of the navy beans, however, its presence is difficult to detect.

It is said that an entire cargo of these poisonous Asiatic beans has been distributed in America, and that this is the second car-load which has come out from St. Paul.

# 10-YEAR-OLD BOY Smothered Under Slide in Sandpit

Rutland, N. D., July 2.—After visiting his older brother to load a wagon at a local sand pit, the ten-year-old son of Ole Jorgensen sat down in the shade of one of the sides of the pit to cool off. A moment later he was buried beneath tons of earth, and when help summoned by his brother dug the boy out, life was extinct.

# RAILROAD TO PROTECT DEER

## Enginemen on Western Road Ordered to Extinguish Headlight to Allow Animal to Jump

A kindly act on the part of a railway is the order of a big California railroad to its enginemen that when a deer is seen on the track at night the headlight shall be extinguished for a moment. More than a dozen deer were killed by trains in California in January. It has been discovered that when the headlight is extinguished, if only for a second, the animals are able to jump to safety. Otherwise the glare of the headlight dazes them so that they are run down before they can escape.

# CITY NEWS

**Here from Rugby**—Paul Campbell of Rugby was in Bismarck over Sunday.

**In From Fargo**—George M. Graham, well known Fargo insurance man, was in the Capital City over Sunday.

**Bank Examiner Here**—L. N. Buxton of Fargo, a member of the state bank examiner's force, was in Bismarck for the week-end.

**Murphy Returns**—Francis Murphy has returned to Minot after appearing before the supreme court in an appealed case.

**Rugby Attorneys**—H. B. Nelson and W. E. Wenzel, Rugby attorneys, were in Bismarck the end of the week on opposite sides of a supreme court case.

**Has Been Laid Up**—O. K. Olson, traveling representative of the Marshall Oil Co., was in last week, unable to cover his territory because of illness.

**Doerr Successor**—H. C. Doerr, who has succeeded the late Nat F. Prentice as representative of the Minneapolis Drug Co., was in over Sunday.

**President Smith Here**—Pres. Fred W. Smith of the Bottineau school of forestry is in Bismarck attending a session of the board of regents.

**Garrison Merchant**—George L. Robinson, pioneer Garrison merchant, was in Bismarck over the week end, to meet Mrs. Robinson, returning from a visit in the east.

**Here from Duluth**—A. E. Coger, formerly of Rugby, and now associated in the practice of law at Duluth with Henry G. Middaugh, another former Flickertail attorney, has been in the capital city on a legal mission.

**Visits His Dog**—Col. W. H. Matz, representing the First National Life was in town over Sunday for a visit with his dog. A certain Bismarck canine has adopted the colonel, and so long as he is in town he always camps at Mr. Matz's hotel. He apparently has a home of his own, as he is only seen down town when the colonel is here.

**Change Made Today**—Henry Taylor, officially retired today from the management of the Grand Pacific and Bismarck hotels, being succeeded in the first by Henry Halverson and John Peterson and in the second by Fred Peterson. These three young men, all of whom have grown up in the business, have taken a ten year vacation on the two hostleries, and a successful regime is predicted for them.

# CARE FOR UNIVERSAL JOINTS

## They Are Hard to Get at and Always Dirty—Wear Rapidly if Not Properly Lubricated.

Do not neglect the universal joints on the car. They are hard to get at and are always dirty. But they must be properly lubricated or they will wear rapidly. When they wear they become noisy and reproach you for neglecting them, as they give a loud thump every time the clutch is let in.

# NO MORE FAIRY TALES

"Now the giant had a wonderful musical instrument which would cry out if anybody tried to steal it." "I don't see anything so wonderful about it. I think maybe we could arrange our graphophone to do that."

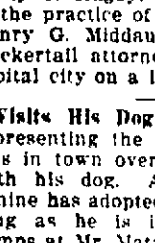

# HUMPHREYS'

Humphreys' Homeopathic Remedies are designed to meet the needs of families or invalids, something that mother, father, nurse or invalid can take or give to meet the need of the moment. Have been in use for over SIXTY YEARS.

# SOLDIERS HIKE TO MANDAN FOR NIGHT'S CAMP

## Troops Make Fine Showing as They Parade Through Streets of Capital City

Companies A, F, and K of the Second battalion made a brave showing this afternoon as they marched through the streets of Bismarck with their medical detachment, their transport wagon, with four genuine canteens attached, and the colors flying, en route to Mandan, where the boys will camp for the night. The five-mile hike was made via the Northern Pacific bridge, special permission having been obtained for the troops to cross. A portion of tomorrow will be spent in Mandan, and advantage will be taken of the opportunity offered for recruiting.

Company H, which will spend Sunday at its home station in Jamestown, where it is to be fed as it is due, will join the battalion Thursday, completing the ranks of the Second. Company H is recruited well beyond war strength, numbering 167 men, and it is probable the extra seventeen and as many new recruits as the company may bring this week, will be distributed among other companies. Company K of Dickinson ranks next to Company H in numbers. When K returned from Fort Mifflin, it had 74 men. So successful have been recruiting operations since that time that it now numbers 148, or but two short of war strength. Company A, Bismarck, has 117 men, and Co. F, Mandan, 107. The battalion now numbers a total strength of 539 which is expected to be increased before the close of the week to the requisite 600.

The one thing now worrying the boys is a lack of summer clothes. The khaki trousers are heavy for warm weather, and the cotton variety seem hard to get. Some of the troopers are going to the length of buying their own cloth and having summer trousers made. Everybody at the fort is looking forward to the hot weather. The boys hope to be given permission to come in early in the morning in order that they may attend the Stanton-Bismarck game at 10:30. The next big event on the program will be the opening of the army Y. The indoor rifle range which is to be used has been cleaned out, and it is expected that a secretary and his assistant will arrive to take charge next week.

# Race Riots Force Martial Law in East St. Louis

East St. Louis, July 2.—Illinois guardsmen at noon today were patrolling the streets of East St. Louis with fixed bayonets as a result of the renewal of the grave disturbances following the killing of detective sergeant, Samuel Coppage, and the wounding of three other policemen by rioting negroes last night.

Police patrolled the streets all night and negro houses were ransacked for fire arms and fifty blacks were thrown into jail. Last night's rioting is believed to be a desire by the negroes for revenge for occurrences in race riots which broke out May 28. The trouble has grown out of importation of black laborers from the South.

Two negroes were taken from a street car this afternoon, shot and killed, and a white man standing in the door of his store was killed by a stray bullet.

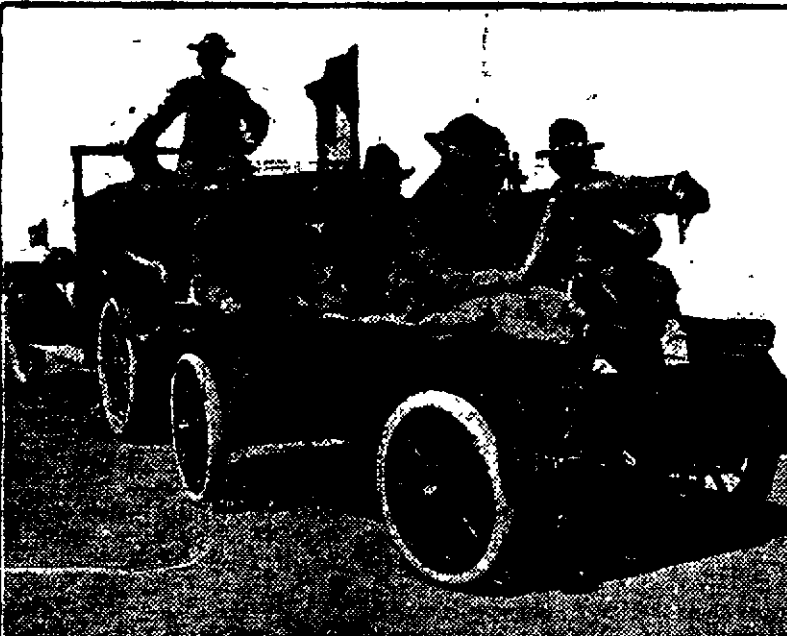

Scandinavian Dance at the K. P. Hall, July 4th dancing starts at 8:30.

**NOTICE OF REAL ESTATE MORTGAGE FORECLOSURE SALE.**  
Notice is hereby given that certain real estate mortgage made, executed and delivered by Andrew Hagen, unmarried, mortgagor, to Interstate Securities company, a corporation, mortgagee, dated September 8, 1915, and filed for record in the office of the Register of Deeds within and for Burleigh county, North Dakota, on the 12th day of June, 1915, at 4:00 o'clock p. m., and duly recorded in Book "123" of Mortgages at page "510," with the power of sale therein contained, will be foreclosed by a sale of the premises in said mortgage and hereinafter described at the front door of the court house in Bismarck, Burleigh county, North Dakota, on Saturday, the 21st day of July, 1917, at 2:00 o'clock p. m. to satisfy the amount due on said mortgage at the time of sale.

The premises named in said mortgage and which will be sold to satisfy the same are situated in Burleigh county, North Dakota, and are described as follows, to-wit:  
Southeast quarter (SE 1/4) of section six (6), township one hundred thirty-nine (139), range eighty (80) and the east half (E 1/2) of the northwest quarter (NW 1/4) of section fourteen (14), township one hundred thirty-nine (139), range eighty-one (81).  
Said mortgagee has paid certain sums thereon, to-wit: Interest due upon a prior lien, which with interest thereon, will, on the day of sale, amount to ninety and 35-100 dollars (\$90.35) and which amount is included in the amount hereinafter claimed to be due at the time of sale.  
This foreclosure and sale is for past due installments only and is subject to all installments of said mortgage not yet due. There will be due on said mortgage on the date of sale the sum of one hundred twenty-eight dollars (\$128) besides attorney fees and the costs of this foreclosure.  
Dated at Minot, North Dakota, this 15th day of May, 1917.  
INTERSTATE SECURITIES COMPANY.  
Francis Murphy,  
Attorney for Mortgagee,  
Minot, North Dakota

# HOW TO USE CAR IN SERVING COUNTRY

How can I use my automobile in the service of my country?  
That is a question which interests almost every owner of a machine in America. Already a census is being taken of automobiles and their owners, so that when they are needed the government can obtain them with the least possible delay. writes Frederic J. Haskin in Chicago Daily News. There are over 3,000,000 autos in the country. This is certainly a tremendous transportation force. And its value is increased by the fact that a very large part of these cars are owned only for pleasure and so are not essential to our present industrial organization. Furthermore, the ownership of an automobile is usually an indication of intelligence and of the possession of a certain amount of property. We have then certainly over a million cars serving no essential purpose except the recreation of their owners. These owners are men and women of better than average ability who can afford to devote time and money to the service of their country, and it may be safely assumed that a large percentage of them would like to render that service.  
**Help Get Food to Market.**  
Under these circumstances some immediate use for the nation's pleasure

RAPID-FIRE GUN PLACED IN TRAILER CAR.

automobiles should be found. To list them for the emergency of sudden troops movement is not enough. There is much work to be done now. The most pressing work is the solution of our food problem, and it is largely a problem of transportation, as the officials of the department of agriculture are well aware. Short though many of our crops will be this year, many thousands of tons of food are likely to rot on the ground for lack of freight cars to carry them to market. Another immense wastage is due to the fact that the farmer who produces more of any vegetable or fruit than he can use at home, but not enough to make a wagonload or carload, generally cannot profitably bring it to market. We, therefore, have a great waste of food for lack of transportation, and a great transportation power going to waste, so far as any industrial purpose is concerned. These two wastes should be combined to form a great saving.  
Not long ago a practical farmer and an editor in a certain town were discussing the food problem, and arrived at the above conclusion. They also evolved a plan which will probably be put into effect.  
The plan discussed was to save as much as possible of the food which would otherwise be wasted by forming a volunteer organization of automobilists to go about and gather it up. Inasmuch as both the food and the automobiles are undoubtedly available in most sections of the country, the plan should be workable.  
**Fruit and Vegetable Surplus.**  
The food supply gathered in this way would consist chiefly of the surplus production of fruits and vegetables upon farms and suburban places. This surplus production, which is generally either wasted or fed to stock, is much greater than most persons realize. It is due to the simple and inevitable circumstance that no farmer can accurately predict how much of a given truck of fruit crop his garden or orchard will yield in a given year. For example, one farmer who was consulted with regard to this plan said several tons of good food were wasted upon his place every year, because he produced more than he could use in fruits and vegetables, but seldom had enough at any one time to make it profitable to haul the stuff to market.

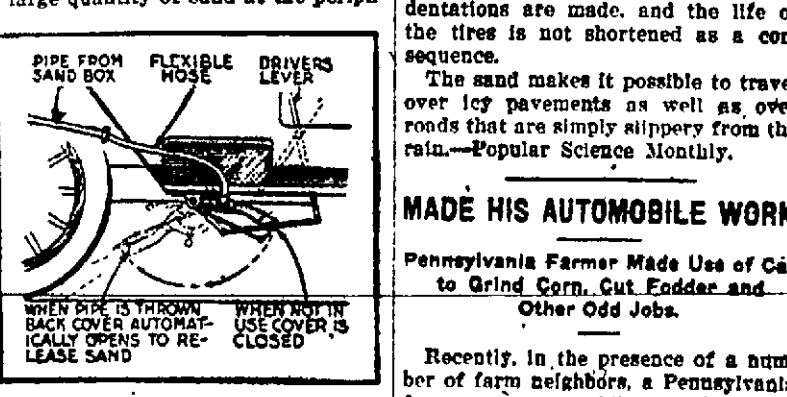

# TO AVOID SKIDDING

Method Is Less Severe on Tires Than Any of Others.

# SANDING DEVICE ON MARKET

If Road Is Slippery, Sand It With New, Fast Automobile Accessory—Possible to Travel Over Icy Pavements.

Somewhat like that of a human arm in operation is the action of the adjustable sanding device for automobiles shown in the accompanying illustration. Its principal features are two pivoted fan-mouthed outlet pipes, which may be swung forward or backward at the will of the driver to deliver a large quantity of sand at the periphery of the wheels.

Operating Sanding Device.

erics of the driving wheels, or lesser amounts of the roadway in front. The sand is fed from a V-bottomed box, beneath the rear seat through a pipe connected with the outlet-pipes. These are pivoted on a crosswise shaft which extends beneath the vehicle and which is revolved by means of rods and a lever beside the driver's cab. Rubber-faced disks pivoted on the end of the pipes keep the sand in when the device

# RELAYING STREET RAILWAY BEGINS

Paving in District No. 1 to Be Completed Without More Delay

Day Oakes of the Hanlon & Oakes Paving Co., accompanied by Mrs. Oakes, has returned from Miles City, where the company has completed its paving contract. The rails for the capital street railway were unloaded this morning and track-laying operations began this afternoon. As fast as the ties are put in place, the paving men will proceed with the laying of concrete and it is expected that the present gap in Bismarck's pavements will have disappeared within two weeks. The new rails were procured from Minneapolis and are of the approved "T" shape, massive and calculated to care for Bismarck traffic for many years to come.

# NAGEL FILES BUT ANDERSON REMAINS UNKNOWN QUANTITY

Morton County Man Qualifies to Succeed Sylvan L. Olson on Board of Control

Simon J. Nagel of Glen Ullin this morning filed his bond and commission and qualified as a member of the state board of control to succeed Sylvan L. Olson of Bismarck. Berndt Anderson of Church's Ferry, nominated and confirmed at the same time as Nagel, and whose appointment was to have taken effect June 18, when the term of Chairman E. S. Lewis was held to have expired, did not present himself at the capitol this morning. Anderson was in Bismarck on June 18, but returned home without qualifying after a difference with Governor Frazier. "We have nothing to announce with relation to Mr. Anderson," was the only advice offered at the governor's office this morning.  
Commissioner Nagel is a former member of the Morton county commission and has been an active leader. It is expected the board of control will re-organize tomorrow. Whether Mr. Anderson will have qualified by that time remains to be seen. For Mr. Lewis, of Fargo, by virtue of his previous term having qualified, remains a member of the board.

# COUNTY EXEMPTION BOARDS ORGANIZED

Little Time Being Lost—Cards (Should) Be Numbered by July 7

Reports received at the adjutant general's office indicate that county exemption boards are losing no time in completing their organization. While the date for making the draft has not been set, it is anticipated that it will be announced soon, as a request has been made that all registration cards be in the hands of the adjutant general by July 7. It probably will be impossible to comply with this order. All cards must be numbered serially by the registration boards, and not all boards have been prepared for this duty.

# Mercury Hovers But One Degree Above Freezing

The temperature fell to within one degree of the freezing point at Bow-bells last evening, within three at Napoleon, four at Bottineau and Minot, and five at Langdon and Fessenden. The lowest in Bismarck was 44. No killing frost was reported anywhere in the state, however, in advance this morning to Meteorologist O. W. Roberts, in charge of the United States Weather bureau for North Dakota. The present cool wave is general over the central states, following the breaking of a period of exceptionally warm weather.

# BELGIAN COMMISSION ARRIVES IN CHICAGO

Chicago, July 2.—The story of Belgian war devastations, her gratitude for help extended by the United States, and her hope for the entry of the United States into the war, was brought to Chicago today by the Belgian war mission, headed by Baron Ludovic Moncheur, chief of the political bureau of the Belgian foreign office.  
The decision of the United States to enter the war meant the salvation of Belgium, Baron Moncheur said.

# MADE HIS AUTOMOBILE WORK

Pennsylvania Farmer Made Use of Car to Grind Corn, Cut Fodder and Other Odd Jobs.

Recently, in the presence of a number of farm neighbors, a Pennsylvania farmer gave an exhibition of the use of his automobile to grind corn, cut fodder and other things where power was needed. He had jacked up the auto from the ground, and used one of its wheels revolved by the auto engine as a driving wheel for the belt to operate the feed grinder and fodder cutter. It is likely that many uses for the auto will be found when the roads are too bad for travel, and when power is needed and can be utilized in the operation of farm machinery.

# were joined at Minneapolis by Mr. C. R. Cunningham, spent Sunday night in Bismarck.

**Has First Potatoes.**—The first new potatoes of the season were reported last week by C. M. Henry Hollet, from his garden on Sixth street. The tubers were larger than hen eggs, and mighty fine eating, says Henry, who gives most of the credit to Mrs. Hollet, inasmuch as his principal interest in the garden has consisted of inspecting it once a week.

**Former Resident Here.**—Charles F. Sheldon of Fort Pierre, S. D., was in Bismarck a short time enroute to Glen Ullin, where he lectured this afternoon at the Chautauqua entertainment. Mr. Sheldon was agent in Bismarck for the Wells Fargo Co. 30 years ago, and noted many changes in the capital city since then. Mr. Sheldon stated that he was only able to locate a few of the old-timers, who were familiar figures here at that time.

**Large Crowd at Meeting.**—The Sunday evening attendance at the evangelistic meetings conducted by Evangelist Mathews in a tent on the Auditorium grounds, was very well attended and much interest was manifested in the meeting. Evangelist Mathews is meeting with considerable success. The attendance increases nightly. He has prepared a special sermon for the meeting this evening, which begins at 7:45.

# LANGER PUTS UP BONDS ON RIOT CHARGE IN MINOT

Minot, N. D., July 2.—Langer came to Minot late yesterday and gave bonds on the riot charge. He proceeded to Bismarck early this morning after speeches at Bottineau and Tolley, which were filled with caustic comment on this district court.

# DETECTIVE WHO HELPED EXPOSE COCCHI WARNED

Bologna, Italy, July 2.—Joseph W. Criggs, New York detective, who came here in connection with the case of Alfredo Cocchi, the murderer of Ruth Cruger, has been warned that he will meet the fate of Lieut. Petrosino who was assassinated.

# DANFORD AGAIN HEAD OF METHODIST CAMPMEETING

Jamestown, N. D., July 2.—The Methodist Camp Meeting association closed its thirtieth annual session here this morning with the election of S. A. Danford of Bismarck, president; Rev. J. G. Morrison, Jamestown, first vice president; Rev. J. S. Miller, Wimbledon, second vice president, Rev. F. W. Gress, Minot, secretary, and E. H. Johnson of Sharon, treasurer. Rev. Morrison was elected editor of the "Methodist," official organ of the association, and superintendent of the department of publicity and evangelism. He will make his home in Jamestown.

# VISITS HER SON

Mrs. A. L. Oxum of Lead, S. D., was in Bismarck over Sunday to visit her son, A. H. Oxum, who is at Fort Lincoln with Co. A.

# MAKING PICTURES

The Publicity Film Co. last week completed a community picture of Steele and Kidder county and has contracted for similar pictures of La-Moure and a pictorial review of the operations of the North American Creamery Co.'s plant at Oakes, said to be one of the most advanced in the northwest.

# CAST-OFFS ARE MAKING GOOD

Lefty Russell and Bruno Haas, Discarded by Athletics, Playing Well for Newark.

Two cast-off Athletic pitchers are making good as regular players for the Newark International league club. They are Lefty Russell, who is covering first base, and Bruno Haas, who is playing in the outfield. Both men have won the fans with their mighty hitting.

Haas and Russell weren't with the Athletics very long, but they are distinctly remembered by Philadelphia. Russell came there in 1910 from Baltimore for money and players amounting to \$10,000.

He never made good because of illness contracted during the previous winter and went to the minors, where he has since played good ball.

Bruno Haas joined the Athletics in 1915, and on June 23 of that season made a world's record by issuing 16 bases on balls to New York batters.

Both Russell and Haas saw they would never make pitchers, so adapted themselves to other positions, where they are having better fortune.

# TOO LATE TO CLASSIFY

**FOR RENT.**—Six room, modern house. Inquire J. H. Doran 7-23.  
**FOR RENT.**—Furnished room at 200 Mandan Ave. 7-24.  
**FOR SALE.**—Complete new furnishings for small flat. Leaving town and must sell quickly. Exceptionally low price. Phone 6337 7-26.

The McConkey Commercial Co.  
510 Broadway Phone 209

# Thanks to Patrons Congratulations to Stockholders

We again wish to thank our customers for the heavy trade of the month of June, the heaviest trade in our history.

Last Saturday was the largest volume of business we have experienced.

The month was the best in our history and the six months just closed gave us more sales than any entire previous year.

The increase of business amounts to about 250 per cent of that of any other like period. This is for the first half of the year, the month of June and last Saturday of the first half of the year.

We sincerely thank our customers for this wonderful showing and promise to show our appreciation by renewed efforts for more efficiency and greater efforts for better service.

We congratulate our stockholders on the financial showing and we as employees promise more faithful service in waiting on customers and watching the interests of our stockholders in the next six months.

While we do not know the cause of this tremendous increase in every detail we do know that we sincerely thank you.

The McConkey Commercial Co.  
510 Broadway Phone 209

# REV. BUZZELLE URGES FOOD CONSERVATION

Rev. George Buzzelle, pastor of St. George's church, urged upon his congregation Sunday, the extreme necessity of food conservation. He spoke in part as follows:  
"When they were well-filled, he said unto his disciples, Gather up the fragments that remain, that nothing be lost.—St. John vi, 12.  
"Fragments are precious in God's sight. The five thousand had been well-filled. Everybody was satisfied. But Christ looked upon the broken pieces, and gave command that they be gathered. Therefore, they gathered them together, and filled twelve baskets with the fragments of the barley loaves, which remained over and above unto them that had eaten. The world has been a long time learning the true value of fragments. To-day, men grow rich saving that which a preceding generation threw aside. The spiritual side of the truth is the most difficult to apprehend. A thoughtful observer must be appalled at the vast number of men and women received into the church who apparently have no present place therein. The inheritance is theirs. The Father's table is spread abundantly, so that their every need may be satisfied. But they are absent. Not only is the church and the world the poorer in power and effectiveness by the loss of this great army of potential workers, but there has been a great loss of the original effort that resulted in the bringing of these 'fragments' into the life and activity of the church. The problem of spiritual wastefulness is most pressing. We cannot escape from it by the age-long evasive question 'Am I my brother's keeper?' God, and every noble instinct of humanity has answered that in the affirmative. Christian people must be aroused to the gravity of the situation, and every effort must be put forth, and every means employed to gather up these precious fragments, else indeed the world will be poor and suffer loss.  
Another thought in this connection deserves careful consideration. Those in authority at Washington, who have the opportunity of knowing the economic conditions of the country, have appealed to all the people of the land, and especially today through the instrumentality of the Christian ministry to prevent the terrible waste that seems to be a characteristic of American people. Astonishing figures are presented for our consideration. What right have we to waste the gifts of God? What right to gather of God's bounty more than we can use, and then cast it into the rubbish heap? We are righteously indignant at the racial war which will allow the earth's produce to rot, rather than sell it to those who need it at a reasonable price, and yet we are guilty in kind if not in degree, when we waste the precious riches of God's bountifulness. Not only should we be careful and saving, we should carry the same gospel to others, so that

# EXEMPTIONS ANNOUNCED BY GOVERNMENT

(Continued from page one)  
dependents or third parties file claims with supporting affidavits. Local boards are required, subject to appeal, to pass upon claims for exemption, or discharge within three days after the filing of affidavits. District boards must decide appeal cases within five days after the closing of proofs and their decisions are final. If the ruling of a local board is affirmed, the person in question stands finally accepted for military service.

# MISSING GIRL FOUND.

New York, July 2.—Word that Miss Velma Pomeroy, well known in suffrage circles, had been found in Philadelphia, was received here today, and her father, Charles W. Pomeroy, formerly a supreme court judge in Montana, left for that place. She was reported missing last week.

ORRIS W. ROBERTS, Meteorologist

Quarrels would not last long. If the fault was only on one side—La Rochefoucauld.

CELEBRATING JULY 4.

It is hard to believe that people can be serious when they discuss whether they shall celebrate July 4 quietly and seriously, or whether there shall be the usual ballyhoo, racket and noise.

There never was any excuse for making of Independence Day an occasion for mere sound and fury, and there is less reason for this procedure this year than ever before in our history.

In 1776 when the handful of American colonists declared their independence and defied the British king and the British power, they did so with a full appreciation of the gravity of the step they had taken. There was no wild rioting and noise-making. The patriots knew there was stern work in hand and bitter fighting to be faced, before they would be able to translate brave words into achieved deeds.

The same soberness, determination and high purpose should mark every assembly of Americans this year on July 4.

Only a few months ago we once more declared our independence. Once more we defied a king and a mighty empire. We said to the Kaiser that in our vocabulary there is no such word as "verboten," and that we could not subscribe to the insolent Prussian doctrine that our ships could travel the salt seas only by permission of German minions and when barred like zebras. Once more we should realize that there is stern work in hand and bitter fighting to be faced, before we are able to translate brave words into achieved deeds.

The monarch to the Americans of 1917 is just as grave as it was to the Americans of 1776. Had we lost in the earlier day, there would have been no American republic. It we lose now, we lose a very large part of our independence, and sink to the level of a vassal state, forced to do the bidding of the German emperor and his war lords.

July 4 should, therefore, once more be a day of prayerful thought. We should assess the job we have in hand.

We should keep our resolves up to the highest pitch.

We should realize that it is our duty and privilege to give all we have and are that government of the people by the people for the people may not perish from the earth.

Red cross donations are still acceptable so long as the war lasts.

ROOT IN RUSSIA.

Even those who expressed displeasure that one with Ellihu Root antecedents should be chosen by the president to head the American mission to revolutionary Russia, must confess their agreeable surprise over the manner in which he has so far accomplished his difficult and delicate task.

The Slav has a history a religion, a literature and a temper worlds away from anything with which we are familiar in this country. And yet so far we have been able to judge at this distance our special ambassador has gauged Russian public sentiment to a nicety and adjusted his own utterances to fit in most perfectly.

He has delivered a whole-hearted, generous and unselfish message from

an old-established democracy to a newly-formed one. He has extended the hand of brotherhood.

He has stated how glad our people are to know that another great race has thrown off the shackles of medievalism, and walked out of the shadows into the sunlight of God's freedom. He has impressed upon them that America wants nothing for herself and is warring for no selfish purpose. He has shown them that if they want to preserve their liberty, they must continue to fight the Kaiser, who is the enemy of all liberty. He has demonstrated that only by standing together can the free peoples of the earth remain in freedom.

If Russia stands firm, if her people organize a stable government, if her armies once more render effective co-operation with the legions of the west, we will all have to thank Ellihu Root for the large part he played in bringing about the consummation so ardently desired everywhere, save in the Teuton countries.

The "ex" stands for exit to kings and such.

HARD ON NEUTRALS.

All is ready to put into actual operation the first of the big war plans entrusted to the president—control of exports. Under arrangement with the British government, the United States and Great Britain will, practically, have control of the world's trade in their hands, which means a mighty big plan and mighty big control. It means perhaps mighty possibilities in the future, since the world is going to be very hungry for some time after peace comes.

Putting it in plain words, we've directly engaged in the business of starving Germany. The American food supply will be used first to feed Americans, secondly to feed the Allies, and what is left will go to the neutrals under such tight regulations that it cannot reach Germany. This latter fact will spur the U-boats on to making hotter war on neutral ships, which means that neutrality is going to have a real hot time in sticking to its neutrality. Indeed, that neutrals are to get only what's left over from Americans and Allies is a warm proposition in itself. To torpedo neutral shipping under such conditions, will be like blowing up both head and tail of neutrality.

Men possessed of an idea cannot be reasoned with—Froude.

JUST NORMAL BEINGS.

A great deal is being said these days about the necessity of safeguarding the moral atmosphere of the cities near which the big army cantonments are to be located. This is all very well, so far as the cities are concerned, but the imputation that soldiers are morally not the civilian population should not be allowed to go unchallenged.

After all, our American soldiers—whether volunteers or conscripted—are drawn from the body of our civil life. And what is more, they are apt to be higher than the general average instead of lower. The man who volunteers to fight for his country is not apt to be of slack moral fiber. The man who is selectively conscripted, by dint of that very selection, is apt to be of good moral repute.

What happens to the American boy after he becomes part of the army is not conducive to a breakdown in his morals. The discipline to which he is subjected, the drills, the gymnastic exercises, the open air life, all tend to give him a healthy mind in a healthy body. He learns self-control and self-respect. He is taught to make himself strong and a vital part of strength is moral fiber.

This is not to contend that the army is a big Sunday school. It is not. But the temptations of the young soldier are certainly no greater than those of the young man in the ordinary small city and the opportunities to indulge in drink and vice are decidedly less. The goings and comings of the ordinary civilian, who is making his own living, are not much regulated.

The movements of the soldier are regulated all along the line.

The hedonist in life of the soldier boy very largely takes the part of the home-influenced life of the lad in his native city. And the morals of the one are apt to be just about on a par with the morals of the other—rather very much better, not very much worse.

Maybe the Kaiser's airmen would agree not to bomb public schools where the children are taught German.

Chang Haun says he's dictator of China. Yuan Shi Kals' short-lived empire makes him a bit shy of trying it again, at least without warning.

We pass this along for what it's worth. A Salt Lake City woman has just got a court order restraining her husband from interfering with house cleaning.

President's exemption regulations are to fix March 15, 1917, as date before which man must have been a

member of faith opposed to war. Chances are there'll be some backsliders.

Czar Ferdinand of Bulgaria fears the coming of the Greeks. The ancient reputation of the Hellenes has not faded.

Be a snail. A war-time anti-waste slogan backed by Miss "Number, Please." S.P.U.T. Society for the Prevention of Useless Telephoning.

We have a hunch that the word "Pershing" will soon become a perfectly good verb in Europe and that the Germans will know what it means.

GERMANS DESERT ARMY IN DROVES

Story From Holland Says Uhlans Were Sent to Shoot Them Down.

BEG FOOD AT DUTCH BORDER

Weary of War and Depressed by Hunger They No Longer Believe in German Victory, but Are Eager for Peace.

By W. J. L. KIEHL (Special Correspondence of the Chicago Daily News.)

The Hague, Holland.—On the southern border of Holland desertions from the German army occur on a large scale nowadays. At first it was only a single soldier here and there, then they came by threes and fives, later in groups of ten and twenty, but now as many as seventy and eighty come in at a time. A few days ago a little army tried to desert—some 500 to 600 men, mostly fusiliers, marines and land-sturmtruppen.

The Dutch report says that they attempted to cross near Cadzand, but the German military authorities got wind of it, and 200 Uhlans with two machine guns were dispatched from Bruges to head them back. A formal battle raged between the two forces; it was viewed from Holland. The machine guns got in their deadly work, and almost all the would-be deserters were either killed or captured; only eight wounded men succeeded in reaching Dutch soil and safety.

Every fresh arrival, deserter or escaped prisoner, tells the same story of famine conditions in Belgium and Germany, and depression among the soldiers, who dread being sent to the front. They no longer believe in German victory, but are eager for peace. Only one escaped prisoner had a different story to tell, and that man was a Russian general, who arrived in Maastricht accompanied by two German "light lieutenants" who had escaped with him.

Russian Gets Through Lines.

This general believed the Germans can never be reduced by hunger. "They will eat grass or the dust from the street rather than surrender on the allies' terms," he said. He told how bad the treatment and the food was in the German prison camps; he had been in seven, so he could judge. After every attempt to escape he had been transferred to a different camp, but everywhere the prisoners were treated brutally, the officers as well as the men. How he had at last succeeded in getting away with his two companions

long he preferred not to say—because he feared that would make escape more difficult for his comrades still in captivity. He did, however, say that what made escape very difficult was that it caused great surprise to people in German towns and villages to see three able-bodied men walking about, and he and his companions had been obliged to invent all sorts of tales about having been wounded and being now on their way to account for their absence from "the front."

German soldiers frankly beg for food on the Dutch border. The officers don't go quite as far as that. There is a sort of neutral zone along the frontier, where Germans and Hollanders can meet. There the German officers often congregate and make overtures of comradeship to their colleagues on the other side. Friendly relations exist, and when the luncheon hour comes, and the Netherlands see what poor provisions the Germans have, they invite the Germans to lunch. A picnic is held and the Germans consume considerable quantities of coffee, sausage or ham sandwiches, and loudly praise the coffee and the quality of their Dutch comrades' serve. They say they never get good coffee any more.

Although the Dutch officer often meets his German colleagues, it must not be supposed he always agrees with their methods of discipline toward their own men. Both officers and soldiers

in Holland, by far the greater number of them at least, strongly disapprove of the brutal and heartless way in which most German officers treat their men. The younger officers show this by chaffing the Germans about it.

Merchant Ranks Over Noble. How the spirit of caste still rules in the German ranks is illustrated by a little anecdote told me by a Dutch officer. He had come on friendly "coffee" terms with a German officer, Von S., the personification, in the very monochrome of those "schneidige Lieutenants" often lampooned in Germany.

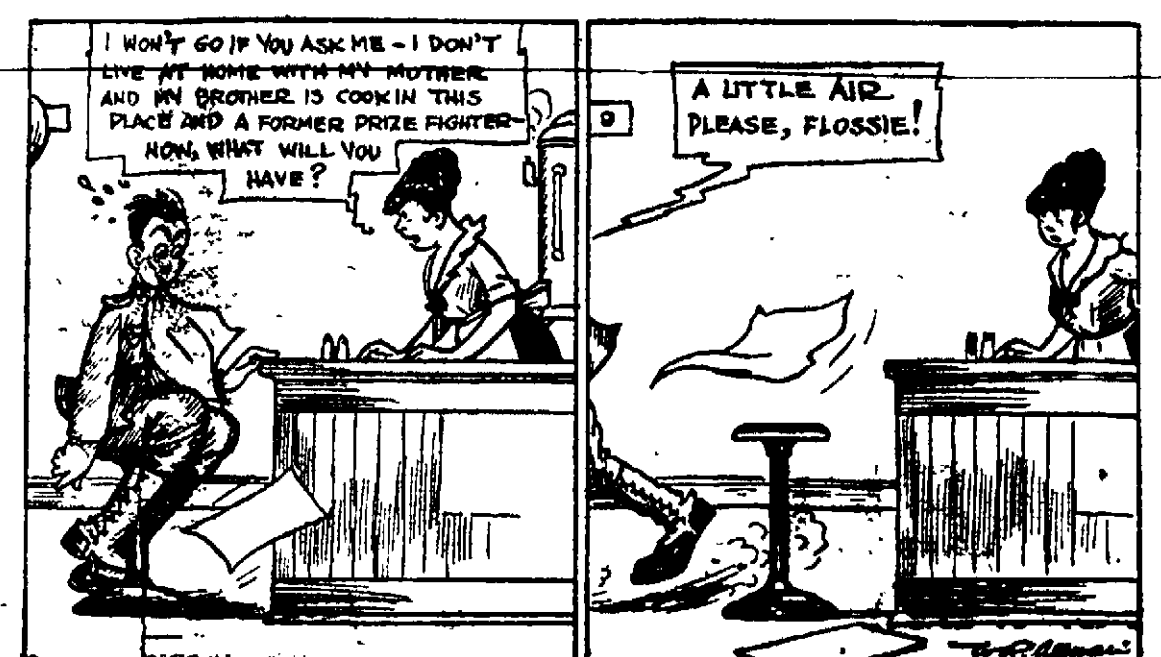

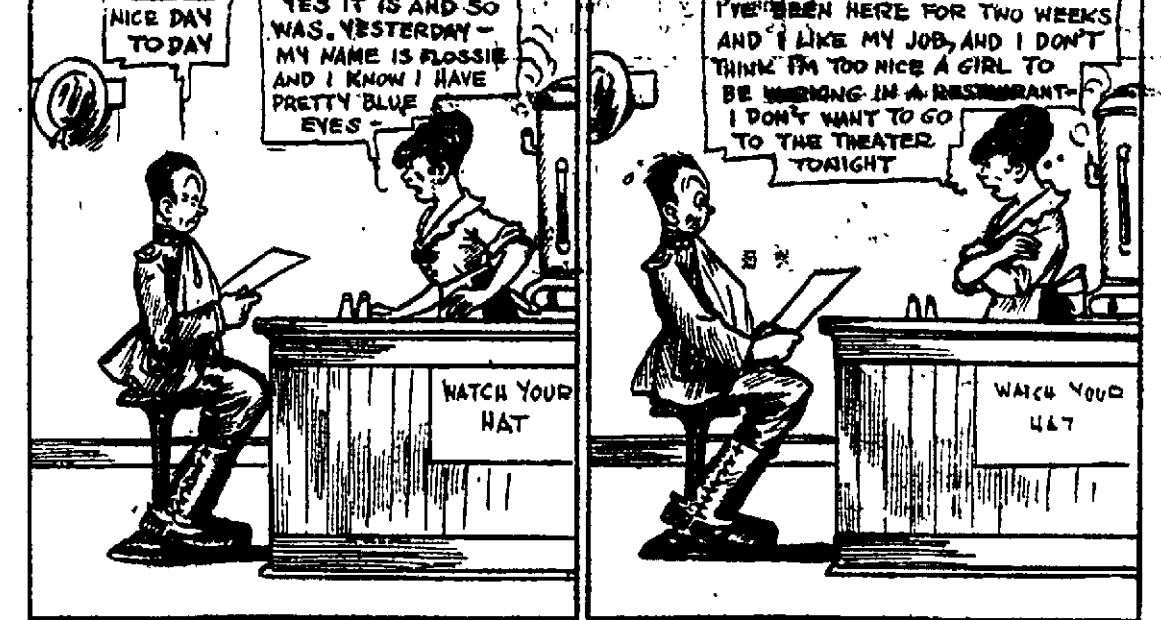

One day Von S. came to lunch bubbling over with indignation, for a simple "bourgeois," a former Berlin merchant, had been given the post of captain in his regiment, and he himself was first lieutenant.

"Denken sie sich, lieber Kamerad!" he exclaimed. "Ich! Von S. Unter einem Kaufmann aus Berlin!" He felt disgraced. But officers are beginning to get scarce in Germany, so the reserve officers who have acquitted themselves creditably have to be promoted to positions they would never have attained in peace times.

Fused Up Her Hair. Elyria, O.—Katie Fuss, in her divorce petition, says Steve Fuss fused up her hair and exhibited a bunch of it to friends to prove he was victor in the brawl.

DOINGS OF THE DUFFS. By Allman

WILBUR STARTS A CONVERSATION

Learn Some French Today

NINTH LESSON PREPARED BY MME ARCHINARD

Have you seen the war bulletin? Avez-vous vu le communiqué? Avay! voo! vù! luh! kumunee kay!

Is the news good? Les nouvelles sont-elles bonnes? Lay noovell son! tell bun?

Where is the aviation field? Où se trouve le champ d'aviation? Oo suh troov, luh shan! davee! aseeon?

Is it far? Can I walk there? Est-ce loin d'ici? Puis-je y marcher? Ess! lovan! deesse! Pweeju ee mairchay?

In these lessons the English phrase appears in the first line, the French equivalent in the second line, and the pronunciation in the third line.

In the pronunciation key, straight lines over the letters A and U, denote the long sounds, as in "hate" and "duke"; curved lines over these letters indicate the short sound, as in "cat" and "but"; two dots over the U indicate a sound somewhat similar to the German "ue," which Americans may approach by trying to pronounce long U and long E at the same time.

Cut out these lessons and paste them in your notebook.

HEIRESS WEDS AN \$18 CLERK

Connecticut Woman Failed of Happiness in Experiment With a Neighbor's Chauffeur.

Port Chester, N. Y.—Mrs. Mary Augustine Woodcock of Greenwich, Conn., who divorced Arthur Woodcock about a month ago, has married Clifford R. Wilmet, employed as a clerk at \$18 a week in the Westchester Lighting company.

The bride, daughter of the late William J. Smith, on the death of her father received \$100,000, the income of which she has spent liberally. Her first husband was chauffeur for Mrs. J. H. Converse. The wedding followed an elopement on May 12, 1910. Mr. Smith did not learn of the affair until the following January, when he forgave the couple and sent them South in his car for a two-months' bridal tour.

Mrs. Woodcock divorced the chauffeur on the ground of desertion. It was said in Greenwich that Mrs. Woodcock's marriage to Wilmet was wholly unlooked for. Several prominent men had been paying her much attention. One admirer called himself "Scout" and other was a well-known Manhattan attorney.

Encouraging Him. "I'm doing my best to get ahead," asserted Cholly. "Well, heaven knows you need one," asserted Dolly. Puck.

WIT and HUMOR

His Cloven Breath. Although a bride of but three short months, she had her troubles—and naturally made a confidant of her mother.

"My dear child," said the mother, "such things will happen in the best of families. But take my advice and have neither eyes nor ears when your husband comes home from the club at a late hour, and you'll be happier."

"P-perhaps so," sobbed the young wife, "b-but what am I to do with my nose?"

Knew His Catechism. "Now, boys," said the teacher in the Juvenile Sunday school class, "our lesson today teaches us that if we are good while here on earth, when we die we will go to a place of everlasting bliss. But suppose we are bad then what will become of us?" "We'll go to a place of everlasting blister," promptly answered the small boy at the pedal extremity of the class.

Turning of the Worm. Mrs. Especk—I found one of your old love letters while cleaning house today.

Especk—Did it contain anything of a startling nature?

Mrs. Especk—Well, you stated in it that you would rather dwell in endless torment with me than to live in bliss alone!

Especk—Huh! My fool dream certainly came out, all right, didn't it?

Proof Positive. Stella—So you and Tom are really engaged, are you? But are you positive you truly love him?

Mabel—Love him! Why, I never even took one of his presents back to find out what it cost!

HEARD AT THE POST OFFICE.

Stamp Clerk—Is this first-class mail matter?

Stamp Buyer—Not on your life; it's a present for my mother-in-law.

A Sporting Proposition. How often in a legal right, Amid the verbal din, We pause to ask not who is right, But who is going to win?

## SOCIETY

Full Program Scheduled for  
Formal Opening of Club

A blind handicap tournament, picnic supper, supplemented with a dancing party in the evening is the program scheduled for the formal opening of the Bismarck Country club independence day.

The officers and directors of the club will be hosts to the club members and their out of town guests at the picnic supper which will be served on the grounds near the club house. A committee of women is in charge of this part of the program. Dancing will be enjoyed from 9 o'clock until 12 and an orchestra will furnish the music.

The blind handicap tournament, which is open to both men and women, will begin at 10 o'clock a. m. and players may start up until 5 o'clock p. m. Prizes will be awarded to the man and woman winners and prizes will also be awarded for the best "medal scores." The tournament promises to be most amusing and with the medal score taken from the same cards the match will no doubt develop much interest.

Plans Completed for Big Feed  
For Soldiers at Fort Lincoln

Plans have been completed by members of the Woman's Auxiliary to Company A for the big feed which they will serve the soldiers stationed at Fort Lincoln on Independence day in the Masonic temple. Four hundred soldiers are expected to enjoy this treat from the patriotic women of the city, Mandan and Dickinson.

Besides the big feed capital city musicians have prepared an interesting program of popular numbers, to be presented during the serving of the feed. O'Connor's orchestra will also furnish music.

The menu will be one of the best ever served by this body of women. Substantial donations have been generously contributed by Bismarck

housewives as well as money from the men.

The women are asking that all donations of cakes, pies and jellies be left Tuesday afternoon from 1 o'clock to 3:30 in Masonic temple.

Soldiers on guard at Camp Frazier and at the fort, who will be unable to attend the feed at the temple, will not be forgotten. Dinner will be served them where they are stationed. The only worry of the auxiliary now is securing automobiles for the transportation of same. Anyone who is willing to assist the women by donating the use of an automobile to go to the camp and forth should communicate with Mrs. Peter Reid at the penitentiary, phone 44. Mrs. Reid would be glad to have this matter attended to before noon Tuesday.

Graduate Nurses to Be  
Examined for Red Cross

A special meeting of the North Dakota state board of nurse examiners will be held in the Capital City Tuesday, Wednesday and Thursday, July 10, 11, 12, at the McKenzie hotel, instead of this week, as was first announced. The meeting is held to consider registration of all recent graduates of nursing institutions, in order that they may become enrolled Red Cross nurses. The calls for the meeting was made following instructions from Miss Anna Goodrich, president of the national organization of nurses.

Miss Goodrich has issued instructions to all state organizations and boards in the country to meet and give every opportunity of getting in line for service, when the need arises.

Returning Eastern Guest.  
Miss Ethel Barnes of Fourth street is returning as her guest Miss Margaret McKeever of Irwin, Pa. Miss McKeever will remain this week in the capital city. She is en route to her eastern home from California.

## Organizes Church Society.

The young women of St. George's Episcopal church have organized a new society and will meet every Friday for work. The members have also decided to sew for the Red Cross on Tuesdays. Miss Anne Atkinson was named temporary chairman and Miss Glenn Bruce, secretary-treasurer. The first meeting will be held with Miss Atkinson in Avenue B, Friday afternoon.

## Entertains for Son.

Mrs. E. F. Beltman entertained Friday afternoon at her home in Thayer street, in honor of the third birthday anniversary of her son, Master Kenneth Beltman. Children's games formed the amusement and a birthday luncheon featured a birthday cake ornamented with three tapers centered the table. Twenty-five little guests attended. Master Kenneth received many beautiful gifts. Mrs. Beltman was assisted by Mrs. J. J. Tucker.

## Carpenter-Hageman Nuptials.

An interesting account of the marriage of Miss Georgia Belle Carpenter, formerly librarian of the State Historical society, and Charles Henry Hageman of this city, is printed in the Randolph, N. Y. Weekly Register. Following is an excerpt of same:

"A simple, but very pretty wedding, was that of Miss Georgia Belle Carpenter and Charles Henry Hageman, which was solemnized at noon Saturday, June 23, in the home of the bride's parents, Mr. and Mrs. E. V. Carpenter of Washington street. The Presbyterian ring service was read by Rev. E. C. Fellowes.

"The bride wore a gown of white charmeuse made en train, with over-dress of embroidered chiffon, and trimmings of lace and pearls. Her tulle veil was caught with a wreath of white blossoms which framed her face. She carried a beautiful shower bouquet of white sweet peas. Mrs. Ida D. Pike, pianist, and Miss Mildred Mortimer, violinist, played the wedding music. Just previous to the service Walter Wilhelm sang, 'O Promise me,' and 'The Harbor of Love.' The ceremony was performed beneath an improvised altar of ferns and pink blooms."

Following the ceremony a wedding dinner was served with covers for 24. Mr. Hageman and his bride are enjoying a wedding trip to eastern points. They will return to the Capital City the last of the month and will make their home here.

## Personal Notes.

Mrs. Victor J. LaRose of Sixth street returned Sunday from a two weeks' sojourn in Minneapolis and Chicago.

Norman Livdahl of this place was a week-end guest at the E. T. Burke cottage at Lake Sallis, Minn. Mr. Burke also spent the week-end with his family.

Miss Staley of Garrison is the guest of her brother and sister-in-law, Mr. and Mrs. Charles Staley, of Sixth street.

Miss Fedora Draney of Dickinson is the guest of Miss Catherine Morris of Sixth street. She is also visiting her brother, a member of Company K, now stationed at Fort Lincoln.

Mrs. Sidney Cohn and children of this place have returned from a several weeks' visit in the twin cities, Duluth and Wabpeton.

Mrs. E. S. Clayton of Avenue B returned "Saturday" from Dickinson, where she was the guest of Mrs. Christian Thompson. Mrs. Thompson is a former resident of the Capital City.

Mrs. W. Hannevald of Fifth street is recovering nicely from injuries received in a fall down a flight of stairs. Miss Lydia Fredell and Miss Bird, nurses in training at St. Alexius hospital, have returned from spending their vacations in Red Wing and Owego, Minn. Miss Webber, a member of the class, is spending her vacation with relatives in Strasburg.

Mr. and Mrs. Sam Clark of Avenue A left last night for Minnesota, where they will visit Mr. Clark's old home in Stevens.

Miss Ethel Jones of Sparta, Wis., has arrived in the city to spend the summer vacation with her sister, Mrs. Larson, Mary Jane Whitty, Ed.

## BOUDOIR ROBES SET STYLES IN PRACTICAL HOUSE GARMENTS

CHARM AND COMFORT IN THIS BOUDOIR ROBE.

By Betty Brown.  
New York, July 2.—Lounging in a chaise longue is a luxury not permitted to every woman, nevertheless it is the dress designed for the lady of leisure which sets the fashions in all loose and comfortable house gowns. Just as the elegant chaise longue is often misnamed a chair lounge, so the boudoir robe often becomes a wrapper. The lovely pink crepe de chine robe of today's illustration is of a simplicity adapted to any material. The size of the collar and the embroidered medallions circled in lace are smart details which can be worked out by any clever needlewoman.

## CITY NEWS

Wilton Visitor.—Attorney W. A. Beardsley of Wilton spent the week-end in the Capital City.

Birth Announced.—A daughter was born this morning in the St. Alexius hospital to Mr. and Mrs. E. Hetland, of Robinson, N. D.

Visits Brother.—W. J. Orchard of Dickinson, druggist, is in Bismarck today as a guest of his brother, Ernie Orchard, deputy state bank examiner.

Accepts Position Here.—Charles W. Marr of Guthrie, Okla., has accepted a position in the United States Land office, here, to fill the vacancy caused when Wesley J. Leter was transferred to field service and assigned to Cheyenne, Wyo. Mr. Marr arrived in the city last night on No. 1.

Crops Look Fine.—C. M. Henry Holist, the Patrick-Duluth man, returning yesterday from a trip to Beach, reports that Golden Valley crops are the finest in the state.

Good rains were enjoyed Wednesday a fair amount of precipitation. Tuesday and Thursday of last week, and last Friday there was a corking fine rain. Killdeer, Mott, Dodge and Baldwin all report excellent prospects, states, Mr. Holist.

## BISMARCK ADDS TWO MORE WINS TO ITS CREDIT

Speedy Aggregation From Werner or Twice Goes Down in Defeat Before Capitalites

## GOLDIE AND CHRISTIE PITCH SPLENDID BALL

The Bismarck Invincibles added two more wins to their long list Saturday and Sunday, when they defeated in snappy, interesting games the speedy aggregation from Werner. The crowds attending both of these contests were the best of the season. The Champs were favored with ideal baseball weather and everyone was happy.

**Goldie in Form.**  
Goldie was on the mound for the locals Saturday evening, holding the visitors down to six scattered hits, which netted them but one run. The Champs found Smith, delivery boy for the Wernerites, for eight hits, which were placed where they did the most good, winning five circuits of the bases.

**Jones Proved Easy.**  
Sunday the much-touted "Smoker" Jones, former Northern league artist, pitched for Werner, and the Champs connected with him for 12 safeties, from which they garnered seven runs. Christianson, pitching for Bismarck, allowed six insignificant hits, and the Champs in an errorless game held the visitors to two runs.

**Pike's Fielding.**  
Pike's fielding was a sensational feature of both contests. The entire team was upon its toes all of the time, playing big league ball that should win a big turnout for the two games with Stanton the morning and afternoon of the Fourth. Stanton probably will bring down the famous band, which accompanied the team for the two games last Fourth, together with several hundred fans, who will back their team to win. The games probably will be the best of the entire season.

## SOLDIERS FOUR

Brickley Brothers, Athletes All. Join Service; Another Will Go When He's Old Enough.

Top, left to right, George, Charles and William Brickley. Below, Joseph Brickley.

Boston, Mass., July 2.—Four sons of Mrs. William J. Brickley are in government service and Mrs. Brickley, true to New England traditions, has told Uncle Sam that the fifth one will be sent as soon as he is a little older. All of the four sons are athletes, but the best known, of course, is Charles, one of the greatest football stars Harvard ever produced.

The others are: William J. Jr., yeoman in the United States navy; George, a member of the medical reserve corps; Joseph, with the army unit at Norwich university.

"William Brickley, 'Big Bill,' as he is known, has been a football and baseball player and is an amateur boxer of some note in Boston. On joining the naval unit he won the amateur championship of the naval son to Tobin. Stolen bases, Peacock, Pike; struck out, by Jones, 10; by Christy, 6. Bases on balls, off Jones, 5; off Christy, 1. Time of game, two hours, 45 minutes.

## PLEA TO EMPLOYEES

Necessity of Every Railroad Man Doing His Bit.

## CHAIRMAN FAIRFAX ASKS AID

Co-Operation of Each Person Is Urged in Appeal Issued by Special Committee on National Defense—Details Outlined.

In an appeal issued to the railroads of the country by Fairfax Harrison, chairman of the special committee on national defense of the American Railway association, the co-operation of each employee is urged. This includes every person in the railway service, from the presidents of roads to track and construction laborers.

The necessity of every man doing his bit in order to help bring the great war to a speedy termination was pointed out by Mr. Harrison. He said that unless all who are engaged in the great transportation systems co-operate loyally and completely the railroads are foredoomed to failure.

Details of How to Help.

He said that every time a freight handler puts extra effort in trucking 1,000 pounds more a day in loading a car, he will have aided just that much in bringing the war to a close, as will be the case every time a locomotive crew adds 15 miles a day to the running power of their engine.

He told the crews of the engines that it is, more so now than ever before, their duty to do all in their power to keep their locomotive out of the repair shop.

According to the appeal, 15 per cent of the locomotives of the country are in the repair shops or undergoing repairs at the present time. It is said this number could be reduced 50 per cent by closely carrying out the suggestion of the committee in that regard, putting back into service approximately 3,325 locomotives.

Reduce Time of Loading.

The average time consumed by shippers in loading and unloading freight cars is about four days, according to figures. By reducing this time a day, or even a half-day, each car can go that much farther in doing its work toward carrying supplies to points where they may be needed by the armies of the United States and its allies.

According to statistics, there are about 2,575,000 freight cars in the United States, of which 167,000 are normally under repair. By proper co-operation and quick repair work 64,000 more of these cars could be put into active service.

Shippers are urged to see that cars loaded by them are filled as far as possible to their capacity. If every car is filled there will be that many more cars in service. As on an average only 43 per cent of the total freight space is utilized, the remaining 57 per cent is wasted.

Co-operation between the railroads and the shipping and commercial organizations of the country was advised in the appeal.

## KEEPING CAR CLEAN

Many People Pay Little Attention to Appearances.

## SMALL PARTICLES CUT METAL

Good Washing With Soap and Water Will Save Many Dollars in Repair Bills—Avoid Soap on Highly Polished Body.

Some people pay little attention to the appearance of their cars, washing and polishing on rare occasions. A cleaning and polishing is necessary not only because it makes the car look better but because it increases life and makes for smooth running, writes H. A. Tarantous of New York in Orange Judd Farmer. Mud and dirt on the running gear parts, such as brakes, universals, etc., would be perfectly harmless if it remained away from the working parts. However, the small particles work their way to the moving parts and cut the metal. This applies to the steering system also.

A good cleaning of the running gear with soft soap and water whenever the mud accumulates will save many dollars in repair bills. Use tepid water and be free with it. A large sponge well soaped should be used to free the mud from its lodgings. Do not use this same sponge for the body because the small particles of sand will cut the finish. Use soft cloth for cleaning.

Be Careful With Hoses.

In using a hose around the car be as careful as possible not to get water into the brake drums and other parts. If a little care is exercised the water can be kept away. Use the sponge for these places to free the mud. In washing the radiator direct the stream of the water from the rear with the hood lifted or off. If this is done no water will get onto the motor and possibly into the magneto and carburetor. Clean the steering knuckles and even the rear axle housing. After the running gear is clean proceed with the body.

Never use soap on a highly polished body. Nothing but water should be used. If there are mud spots they should be soaked off with water. If you rub the mud while it is hard it will cause scratching of the finish.

Apply a Polish.

When the body has thoroughly dried apply a polish of some sort. The wax polishes are good, and if applied once a week will make the cars always look bright. Liquid polishes which are sprayed upon the body can be applied in about one-half hour. No rubbing is necessary with these polishes. A wiping after applying is all that is needed.

For the upholstery use a mixture of half linseed oil and half vinegar for brightening up the leather. Apply it with a cloth and allow it to remain untouched for about an hour. Then wipe the upholstery again, so as to remove any chance of soiling the clothes of the passengers.

## KIDDER COUNTY OFFICERS NOTE LEPROSY CASE

Adopt Resolutions Insisting That State Board of Health Make Investigation

Steele N. D. July 2.—A sensation developed at the Kidder county school officers' meeting here when a committee of school directors presented a signed communication declaring that the state board of health for more than a year had paid no attention to efforts made to procure an investigation of an alleged case of leprosy from which Mary Hurst, a young woman living near Crystal Springs, was thought to be suffering. A member of the same household has been attending public schools during this period.

As a result of resolution adopted by the school officers, F. C. Eastwood, state's attorney, addressed a communication to the attorney general, in which he stated that Dr. J. D. Fuller, county physician, had diagnosed the disease as leprosy several months ago and had so reported it to the state board.

There are six or seven members in the family in which Mary Hurst resides. They live in a small house, and if the disease is leprosy every member is bound to have been exposed. "They go to the stores, hotels, postoffice, to the residences of friends, come and go on the railroad trains," writes the state attorney, who suggests that if the state board is unable to cope with his situation he be reported to proper federal authorities.

## SEVEN DISTRICT DEPUTIES FILE

E. M. Kafer Game Warden for Sixth Judicial, Walker in Twelfth

George M. Hogue, secretary of the North Dakota game and fish commission, was in Bismarck over Saturday. District game wardens who have to date filed their bonds with Secretary of State Hall are Harry Dence, Belvidere, 10th district; R. E. Walker, Oliver county, 12th district; F. C. Michael, Willow City, 9th district; E. M. Kafer, Burleigh county, 6th district; Ed F. Wood, Ward county, 8th district; Oscar A. Whitford, Kidder county, 5th district; C. N. Rogers, Cavalier, 7th district. Peter Scott, of Bottineau, chief game warden in the 1st district, also has filed his bond.

## Killdeer Jail Blown Up—1. W. W. Agitators Suspected Dynamiters

Killdeer, N. D., July 2.—I. W. W.'s are suspected of blowing up Killdeer city hall and jail with dynamite. Two prisoners, who escaped following the explosion, are thought to have been directly responsible. Prisoners who remained were transferred to the county jail at Manning.

## LOADED TRAIN GIVEN BATH

Flat Cars, Loaded With Ties, Run Into Steel Cylinder and Immersed in Preserving Fluid.

A strange-looking train, composed of a narrow-gauge oil-burning engine and a number of very low flat cars of corresponding width, constitutes an interesting part of a tie-treating plant recently opened at Riverton, Wyo. A string of these cars, loaded with about 500 ties, is backed into a strongly built steel cylinder, 182 feet long. The engine is then detached, the big circular door at the end of the retort is tightly closed, and a zinc-chloride solution is forced into the chamber by a vacuum process. When the ties are completely immersed in the preserving fluid it is put under pressure to force it to the wood fiber. After six hours they are thoroughly saturated and are removed.—Popular Mechanics Magazine.

## WHAT A COMFORT "KIT" IS—AND WHY IT GIVES SOLDIER TOUCH OF HOME

First picture of British Red Cross in Egypt using new type of conveyance. The motive power looks American.

By Jane A. Delano.  
Chairman, National Committee on Nursing, American Red Cross.

"What is a comfort kit, and why?" a woman asked at an American Red Cross headquarters in Washington the other day. A woman who has worked for many months in Europe answered:

"It is the soldier's trunk and treasure bag, his Christmas stocking, his furniture van."

Few people realize how barren a soldier's life must necessarily be. He goes forth with his weapons and his digging implements, and just enough blankets to cover him. When he is wounded even those effects are taken away from him, and his uniform and its pockets are no longer available for keeping safe his home pictures and last letters.

But if the women back home have supplied him with a comfort kit, the soldier never becomes the pathetic propertyless chap, forlornly without the little pleasures and necessities that make trench and hospital life more hospitable.

It has been agreed that these comfort bags shall be made of washable material, 10 by 13 inches with draw strings at the top. Suggestions for filling are as follows:

Black sewing cotton No. 30, white sewing cotton No. 30, white darning cotton, needles No. 3, darning needle case (all these because the needle is going to be very far from mother's mending), black and white buttons in a little bag, large thimble, blunted scissors, shaving soap, com-

mon soap, safety pins, common pins, small round mirror, tooth paste, pocket knife, shoe laces.

When these are made, they should be sent to the nearest Red Cross supply service warehouse.

Gay colored cratons make attractive bags for the muddy life of a soldier. They come to him like a bright bit of home and civilization. What goes in the bags depends on the soldier's station and the season.

An unhappy member of the Washington chapter saw a soldier use the nice, new tooth brush he had just got from his comfort kit to clean his gun. Well, he was in America and he had a tooth brush of his own. But several months from now in France and away from a well-stocked canteen he will feel differently.

dition to the shells of his own guns, the German high angle artillery is pumping shrapnel at him as fast as the gunners can load and fire, and usually he is low enough for the infantry to peck away at him with rifles.

The machine is usually kept at an altitude of about 500 feet and it aways and bounds in the "bumps" in the air caused by the passing projectiles.

The noise is appalling. Aviators say the gun sound as though they were only a few yards away.

sonnel there is a representative of almost every trade, profession and business.

Home-sickness is a disease that has little place at the station. There is not time for it. Lying in the sun-swept harbor of Lake Michigan, below the wooded bluffs of the reservation are United States navy warships, aboard which the men get some of their training. For the leisure hours the dimpling waters of the lake invites the more hardy to bathe.

Then there are organized athletics, under the supervision of a naval officer. Regular track meets, boxing bouts and baseball games are held. Also there is a gymnasium and a fully equipped library to occupy the time.

**Learn Money on Time.**

Many of the men earn money other than their pay by doing odd jobs for their fellows. There is a letter writer who for a small sum will write a descriptive letter to a parent or a burning love letter to a young woman for a mate who finds it less easy to express himself. Over in Camp Paul Jones is a tented barber shop in which several barbers are kept busy scraping the faces of their comrades. Alongside is a shoe-shining "parlor" and nearby is a cleaning and pressing establishment; all of them do good business for among the first things a recruit is taught are neatness and personal cleanliness.

Nor do the men want for a woman's interest. Mrs. Moffett, wife of the commandant, herself the mother of three small sons, tries to take a motherly interest in every man in the station. As president of the Great Lakes auxiliary of the Navy Relief Society, she has direction of the caring for the needy families in the middle West of officers and enlisted men of the navy and marine corps. Gifts, received at the station, she distributes personally, frequently offering bits of kindly advice simultaneously.

And when, finally the men are ready to take their places in the American battle fleet, each seems obsessed with the idea that he, personally, must make good.

## TRAINING MEN TO DO UNCLE SAM'S NAVAL FIGHTING

About 8,200 Men Being Fitted for the Navy at the Great Lakes Station.

## EVERY MINUTE IS OCCUPIED

Keen Determination to Make Good to the Prevailing Spirit of the Camp—Plan to Make Station Largest of Kind in World.

Great Lakes, Ill.—About 8,200 men are being fitted for fighting in the nation's first line of defense at the United States naval training station here. Not unlike that in a big college football camp is the routine of their training. Chief party officers are the change with each other, and the men are down the fields in the main camp in preparation for the big game—war.

Every minute is made to mean something. On a dozen fields the air is filled with the authoritative commands of the officers and the pounding of thousands of heavily-shod feet on the turf. Commencing is the bare of the bands, which are directed by Lieut. John Philip Sousa, famous bandmaster, who now has 242 musicians in training and expects to develop the finest military band in the world.

But the spirit of the camp is as serious as that in a football camp. And, as evinced by the last days of November in any college, the statement is not heard lightly. "Everywhere about the station the sentiment seems to be to stick to the team and make a good showing in the eyes of the coaches that a permanent place may be obtained in the greatest game of all. C. G. Smith, captain of this year's football eleven at the University of Michigan, expressed this when he said:

"We are going in with everything we have. We are going to win and make the commandant, Capt. W. A. Moffett, proud of us when we go to sea or be ground to pieces trying."

To Train 20,000 Men.

Plans are under way to make the station the largest of its kind in the world. Preparations have been made to train upward of 20,000 men during the summer. The navy department, upon the suggestion of Captain Moffett, has asked congress to appropriate funds for this purpose.

Constructed originally for 100 men, the war and the resultant influx of recruits has necessitated the springing up of a white, tented city on the reservation and adjoining leased land. Camp Paul Jones, lying immediately to the north of the station proper has been fully equipped and shelters 5,000 men, among them the naval militia from the states of Michigan and Missouri.

It is believed that the station will train five-eighths of the men who go to the navy during the war. Recruits from practically every community in the middle West are expected, men from Illinois, Indiana, Ohio, Michigan, Wisconsin, Minnesota, North Dakota, South Dakota, Nebraska, Kansas, Missouri, Iowa, Kentucky and parts of other states being sent here to learn the business of a man-of-war.

**Men of Every Station.**

Virtually young Americans, from the colleges, offices, farms and factories of the middle West, the men at the station seem to be trained for almost anything. Here one may see a civil engineer enlisted as an apprentice seaman making his transit to make bench marks, while over there on the corner of the reservation are the two slender 400-foot wireless towers from which a man is sending a wireless message to the government station in Arlington, Va. In the heterogeneous per-

## GIRLS DO MEN'S WORK

Railroad building from Chicago already have begun to employ women. The men's work as a result of war's effect in thinning the ranks of the men employees. The Erie and the Baltimore & Ohio have notified operating officials to employ women whenever necessary, and the Chicago, Milwaukee & St. Paul, the Chicago & Alton and the Monon are preparing to take similar action.

## RAILROADS BUILT IN MIDAIR

One of Greatest Engineering Accomplishments Under Our Flag—Many Remarkable Scenes.

A railroad journey on the Island of Hawaii, where the great Kilauea volcano is always active and so easily accessible by auto from Hilo, is filled with remarkable scenes. The railroad is built almost on the edge of the great cliffs overhanging the Pacific, and it crosses deep canyons, bays through ridges and follows horseshoe trestles, all of which forms one of the great engineering accomplishments under the American flag. The railroad passes through banana and coffee miles of sugar cane plantations, picturesque villages of laborers with sections devoted exclusively to Chinese, Japanese, Spanish, Portuguese and Filipinos. Coffee plantations show an intense dark green against the lighter shade of the sugar cane. Occasionally passengers on the trains pass beneath cane bundles, which look like great winged birds, brought over the fields to mills on wire cables or trolleys. In other places they see the cut cane floating down water flumes to the mill. Some of these flume trestles are at least 250 feet above the bottom of the canon.

A splendid auto road parallels the railroad track and over this scores of taxis and jitneys carry a cosmopolitan population.—Boston Transcript.

## CANTON FACES TWO "TIMES" AT ONCE

Canton, O.—"Gosh, I'm as hour late this morning."

"Gee, whiz, I got to work an hour early."

Canton won't know what time it is after June 21. On that date it has been agreed that the city will adopt Eastern time, but Prosecutor Switzer has submitted a written opinion that to change the time on the courthouse clock, in the schools, banks or city and county offices, would be a violation of the state laws.

While the city council has established Eastern time for all other people, it must do its own business by Central time.

## NEWEST OF AIR HAZARD

"Barrage Bumping" Described as Experience That Tries Soul of an Aviator.

London.—"Barrage bumping" is a new phase of air work which has developed with the war.

After the British have gained ground their artillery opens a furious barrage fire against the territory behind the German lines to prevent reinforcements from coming up for a counter-attack.

Aviators are sent out to fly over the German positions and ascertain their condition and strength. As the machines are compelled to fly at a low altitude to get a good view, they naturally have to pass through the shells from their own artillery. This is known as "barrage bumping."

One has to be "all man" to go through many "barrage bumping" exploits without losing his nerve. In ad-

## MOST POWERFUL OF ENGINES

"Seven Hundred," Triple Articulative Type, Put into Service—Power Is Unlimited.

Seven Hundred, the most powerful locomotive that ever hauled a train, was put into service on a Virginia railroad the other day. It is of the triple articulative type—a type of which there are only three others in the United States, and all are owned by the Erie railroad. Seven Hundred, however, has a greater tractive power than any of its prototypes, there being practically no limit to the weight it can pull or push. Before its capacity could be reached, the drawbars and couplers of the train modern cars would break under the strain. Were it possible to put them together, it could pull 300 cars, loaded to capacity, and it would be able to push a much heavier load. A conception of its weight, 344,000 pounds, may be gained when it is known that, in coming from Edinburg, Pa., it had to detour 50 miles between Philadelphia and Wilmington, because the most direct line was not strong enough to bear its weight. The cost to build the locomotive was \$90,000, and it will be used to haul coal in the West Virginia mountains.

## CONDITIONS OF WAR

Effect of Failure of Railway Transportation Outlined.

## UNABLE TO CARRY SUPPLIES

Arms and Munitions Piled in Hoops on Ground at Vladivostok—Disorganization Among Railroads During Civil War.

The effect of a failure of transportation facilities in modern warfare is well illustrated by the present situation in Russia. There seems to be no doubt that the failure of the Russian military plans was to a very great extent the result of the disorganization of the nation's railway system, a disorganization so complete that it extended clear to Vladivostok, 8,000 miles behind the fighting line.

At that port an accumulation of arms, munitions and supplies shipped from America for the use of the Russian forces is piled on the ground for miles. Some of the material has been there for more than a year. It may well be doubted whether the Russian revolution would have come so quickly to a head had the military authorities been able to keep the troops properly supplied and thus put them more nearly on equal terms with the enemy.

**Conditions During Spanish War.**

Nor does the Spanish war furnish the only example of a failure on the part of American railroads to meet the stresses of war conditions. Something of the same sort of disorganization affected the railroads of the Northern states during the Civil war and resulted in the first plan of railway centralization for military purposes.

When, the serious nature of the struggle had begun to be evident to the people of the North and repeated calls for volunteers had resulted in the raising of large numbers of troops in different sections of the country the facilities of the railroads broke down completely. The movement of men and supplies in numbers then undreamed of was too much for the personnel and the equipment of the numerous small roads which at that time broke the journey between most of the principal cities.

**Government Control.**

It was this situation which in 1902 impelled congress to pass a law giving the federal government power to take over the railroads in times of war. President Lincoln, however, contented himself with calling to Washington Col. Thomas A. Scott, then an officer of the Pennsylvania railroad and afterward its president for many years. Colonel Scott received an appointment as assistant secretary of war, with full authority over all the railroads in connection with the movement of troops.

Colonel Scott and his assistants soon had things straightened out and troops were moved to the various mobilization and concentration points as fast as the army authorities were able to take care of them. One of the Pennsylvania's bright young men whom Colonel Scott summoned to Washington to assist him in the work was a certain division superintendent, Andrew Carnegie by name, whose fame in other fields of endeavor has well-nigh obscured the reputation for unraveling knotty problems, which he demonstrated as an official of the military railways.

Another of his assistants was John P. Green, who afterwards rose to the vice presidency of the Pennsylvania and who is still serving the company on its board of directors.

**BUILDING ROADS IN RUSSIA**

According to Department of Commerce About \$300,000,000 Will Be Cost of Projected Lines.

Extensive railroad construction in Russia during the next ten years aggregating almost 60,000 miles, recommended by a special commission, has been approved by the Russian council of ministers. A report to the department of commerce says about \$300,000,000 will be the cost of 51 projected lines, aggregating 20,779 miles, recommended for construction during the period 1917-1922.
